Reduce the liability from  
out-of-date certificates  
that may put your  
organization at **RISK** if  
expired.

- ✓ Reduce typing and manual entry by automating incoming certificates of insurance.
- ✓ Scans and reads your incoming certificate of insurance.
- ✓ Extracts text to be populated into the correct portion of CertAdvisor® for analysis.
- ✓ Sends form emails for certificates that are expired, expiring, approved, or denied.
- ✓ Provides detail to manage and track certificates including notes and the storing of certificates.
